

FAME FOR FIVE AUDITION IDEAS

Having trouble figuring out what to talk about in your audition? Here are a few ideas that we've heard from our current members....

1. I know credit unions aren't in it for the profits, they are in it for me, Tropical Financial Credit Union can help me save money every month when I refinance a car with them...yeah I said refinance my car!
2. When I open a new checking account at Tropical Financial Credit Union they will actually PAY me to use my debit card...up to 5 bucks a month for a full six months – that's WAY better than having to PAY to use my debit card!
3. Tropical Financial Credit Union keeps pace with technology, now I have my credit union with me wherever I go with their mobile banking app!
4. Who knew credit unions did mortgages! Tropical Financial Credit Union not only can help me with my mortgage, but they take the time to make sure that I'm choosing the best options for ME!
5. Just last year Tropical Financial Credit Union reworked their Visa card, and they did it from a member's perspective – talk about member friendly!
6. Every year I end up spending way more at the holidays than I should, but at Tropical Financial Credit Union they help me set up a special account so I can put a little aside all year long and not end up in debt once the holiday bills arrive.
7. With the Tropical Financial Credit Union's online banking I also have "Finance Works" to help me keep track of my family's budget.
8. With Tropical Financial Credit Union's Lifestyle Loans I can actually get a loan for that cosmetic surgery I've always dreamed about; or to put on a new roof; finally get a working air conditioner; get braces for the kids...the possibilities are endless!
9. I may have a small business, but at Tropical Financial Credit Union, they treat my business like it's the most important one around; they truly are a financial partner as I work toward growing my business.
10. Commercial loans used to be something you had to go to a big bank for, where the decision makers didn't necessarily understand my business needs, but at Tropical Financial Credit Union – they are part of my community and the decision makers are right here living and working where I do, so they really understand me and my business needs.
